Address: Queretaro, Qro., México

Professional Profile

Backend software engineer with over 10 years of experience in development, maintenance, and integration of enterprise applications. Experienced in Java and Spring Boot, microservices architecture, REST APIs, systems integration, and deployment in Linux and OpenShift environments. Focused on code quality, security, and continuous improvement using tools such as SonarQube, Veracode, and Fortify. Proactive, self-taught, and easily adaptable to new technologies.

Technical Knowledge and Tools

Languages: Java, C# .NET, Shell Scripting

Frameworks: Spring Boot, Spring MVC, Maven

Architecture: Microservices, REST APIs, SOAP Services

Databases: Oracle, Microsoft SQL Server

DevOps / Cloud: OpenShift, CI/CD, Linux/Unix

Quality & Testing: Unit Testing, SonarQube, Veracode, Fortify, Apache JMeter

Version Control: Git, GitHub, SVN

Methodologies: Scrum, Agile

Other: Crystal Reports, Report Viewer

Work Experience

System Engineer at IDS Comercial

aug. 2022 - mar. 2026

- Developed various microservices in Java 8, 11, and 17 with Spring Boot
- Implemented REST services and backend systems integration in banking environment
- Reduced security vulnerabilities through analysis and remediation of findings detected with Veracode, Fortify, and SonarQube
- Increased code coverage through development of unit tests with JUnit
- Configured and validated deployments in OpenShift within CI/CD pipelines for Microfocus project
- Analyzed logs and SQL traceability for flow validation and incident resolution
- Maintained enterprise applications using Java, JSP, WebSphere, and Unix/Linux scripting

Developer at CECOaching for Neoris

08/2017 - 07/2022

- Analyzed, designed, and developed applications for banking client, including legacy system migrations
- Optimized SQL queries with significant improvements in execution times
- Designed and built reports and data extraction processes for remote transfer between servers and applications

.NET Developer (C# & SQL) at FSW Ilikea

02/2017 - 07/2017

- Analyzed and developed Document Management System for Movistar client, using C# .NET, JSP, and SQL Server tools

.NET Developer (C# & SQL) at SC Computación

12/2011 - 01/2017

- Developed payroll stamping system with automatic CFDI validation to eliminate manual errors in the invoicing process
- Designed and built custom inventory and business management systems for sawmill industry clients
- Analyzed, designed, and built operational management applications
- Provided on-site technical support to end users

Education

Computer Systems Engineering (Instituto Tecnológico de Durango - 2011)

Professional License: 7626171

Scrum Master Foundation SFPC (G-Talent: GT243126)

Languages

English: B2 proficiency (TOEFL ITP: 583/677)

Advanced reading/listening proficiency; intermediate spoken communication

Spanish: Native
